SUMMARY OF QUALIFICATIONS

• More than 8 years of experience in computer simulations, programming and GIS
• Fluent in most coding languages
• Hard-working
• Experience in agile scrum methodology• More than 8 years of experience in software development and GIS
• Authorized to work for any employer in the USA

PROFESSIONAL EXPERIENCE

LANDWORKS INC. **October 2015 – present**
Software developer
• Developed GIS solutions for the oil and gas industry using C#, ARCGIS and Microsoft SQL server

HARVARD FOREST & USDA FOREST SERVICE **September 2015- present**
Contractor
• I received funding from Harvard Forest and the U.S. Forest Service to add desired features to the model "PnET-Succession" (see next entry).

PURDUE UNIVERSITY - West Lafayette, IN **2011- 2015**
Post-doctoral Fellow
Posted at USDA Forest Service Northern Research Station, Rhinelander, WI and Rocky Mountain Research Station, Fort Collins, CO
• Developed a new spatially explicit simulation model, "PnET-Succession", to simulate growth and spread of tree species and associated forest carbon sequestration.

AGROSCOPE RECKENHOLZ TAENIKON – Zürich, Switzerland **2010-2011**
Post-doctoral Fellow
• Simulated biomass and carbon dynamics in lowland grasslands in Switzerland.

ALTERRA B.V. – Wageningen, Netherlands **2009-2010**
Software developer
• Developed GIS applications for spatial ecological models on dispersal patterns of plants and animal species in fragmented habitat.
• Improved the Landscape ecological Analysis and Rules for the Configuration of Habitat (LARCH) model user interface which is a plug-in for ArcMap to analyse population viability given fragmented habitat.
• Expanded functionality of the metapopulation simulation model (METAPHOR) interface which operates as a standalone Windows program that uses GIS freeware to embed GIS capabilities into the program interface.

IMK-IFU - Garmisch-Partenkirchen, Germany **2006-2009**
Research Assistant
• As part of EU's NitroEurope research project on nitrogen cycling, developed a model subroutine *DECONIT* that was published as an isolated program and later embedded in a larger modelling platform MoBiLE.

EDUCATION

ALBERT LUDWIGS UNIVERSITY OF FREIBURG– Freiburg im Breisgau, Germany **2006-2009**
PhD in Forest and Environmental Sciences, *magna cum laude*.

WAGENINGEN UNIVERSITY – Wageningen, Netherlands **1998-2005**
M.S. in Forestry and Environmental Sciences.

AMSTERDAM UNIVERSITY– Amsterdam, Netherlands **2001-2005**
M.A. in Philosophy of Environmental Science.
